Please join us for a follow up webinar when we discuss the role outsourcing, flexible staffing and technology will play in re-imagining the office environment in 2021 and beyond. COVID-19 has brought unprecedented human and humanitarian challenges. Many companies around the world have risen to the occasion, acting swiftly to safeguard employees and migrate to a new way of working that even the most extreme business-continuity plans hadn't envisioned. Across industries, leaders will use the lessons from this large-scale work-from-home experiment to reimagine how work is done—and what role offices should play—in creative and bold ways.
